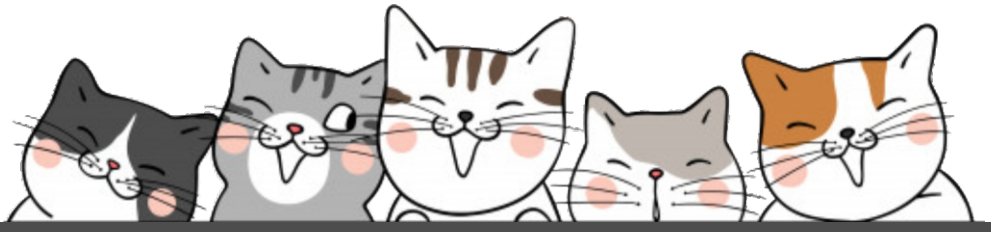
Curious cats everywhere.

All with attitude.

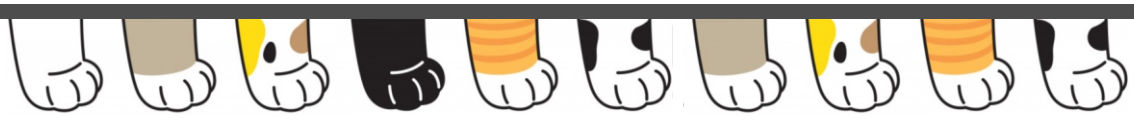
Tabbies, Toms and Tiger cats.

So cool and so purrrfect.



Did you know?

- Cats are one of the most popular pets in the world.
- Cats and humans have been companions for nearly 10 000 years.
- Cats sleep for an average of 13 to 14 hours a day.
- Cats have flexible bodies and teeth adapted for hunting small animals such as mice and rats.
- Cats have powerful night vision and can see six times better in the dark than humans.
- Cats also have excellent hearing and a powerful sense of smell.
- A cat's whiskers are very sensitive to touch and help it to determine whether it can get through a narrow space.
- Domestic cats love to play, this is especially true with kittens who love to chase toys and play-fight. Play fighting among kittens is a way for them to learn hunting skills.
- On average cats live for around 12 to 15 years, and even longer.
- Cats love to groom themselves by licking their coats.



Activity

Make these cute paper cats

Print out the templates on 250g cardboard.

Cut out the templates and colour them in.

See colours for guidelines.

Fold the body part [see examples]

and glue the head and tail to the body.

Stick on 10mm craft eyes.

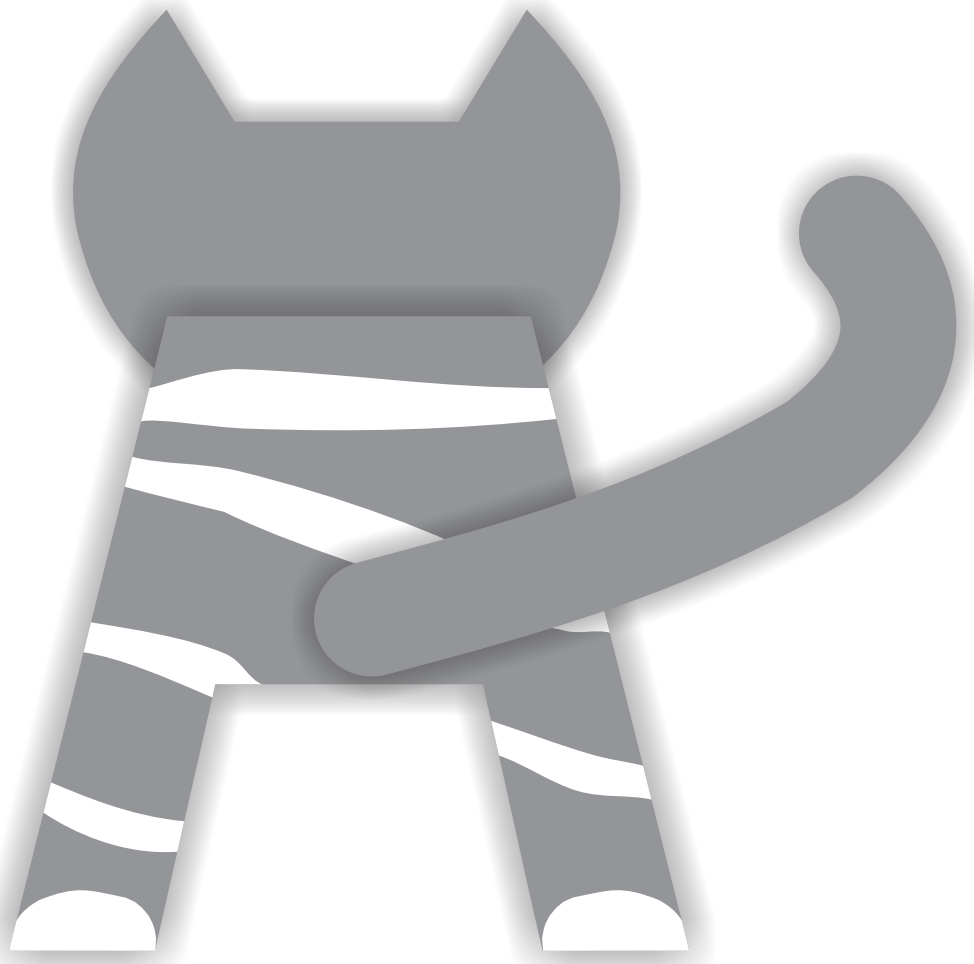
Now you can string the cats together to create a garland

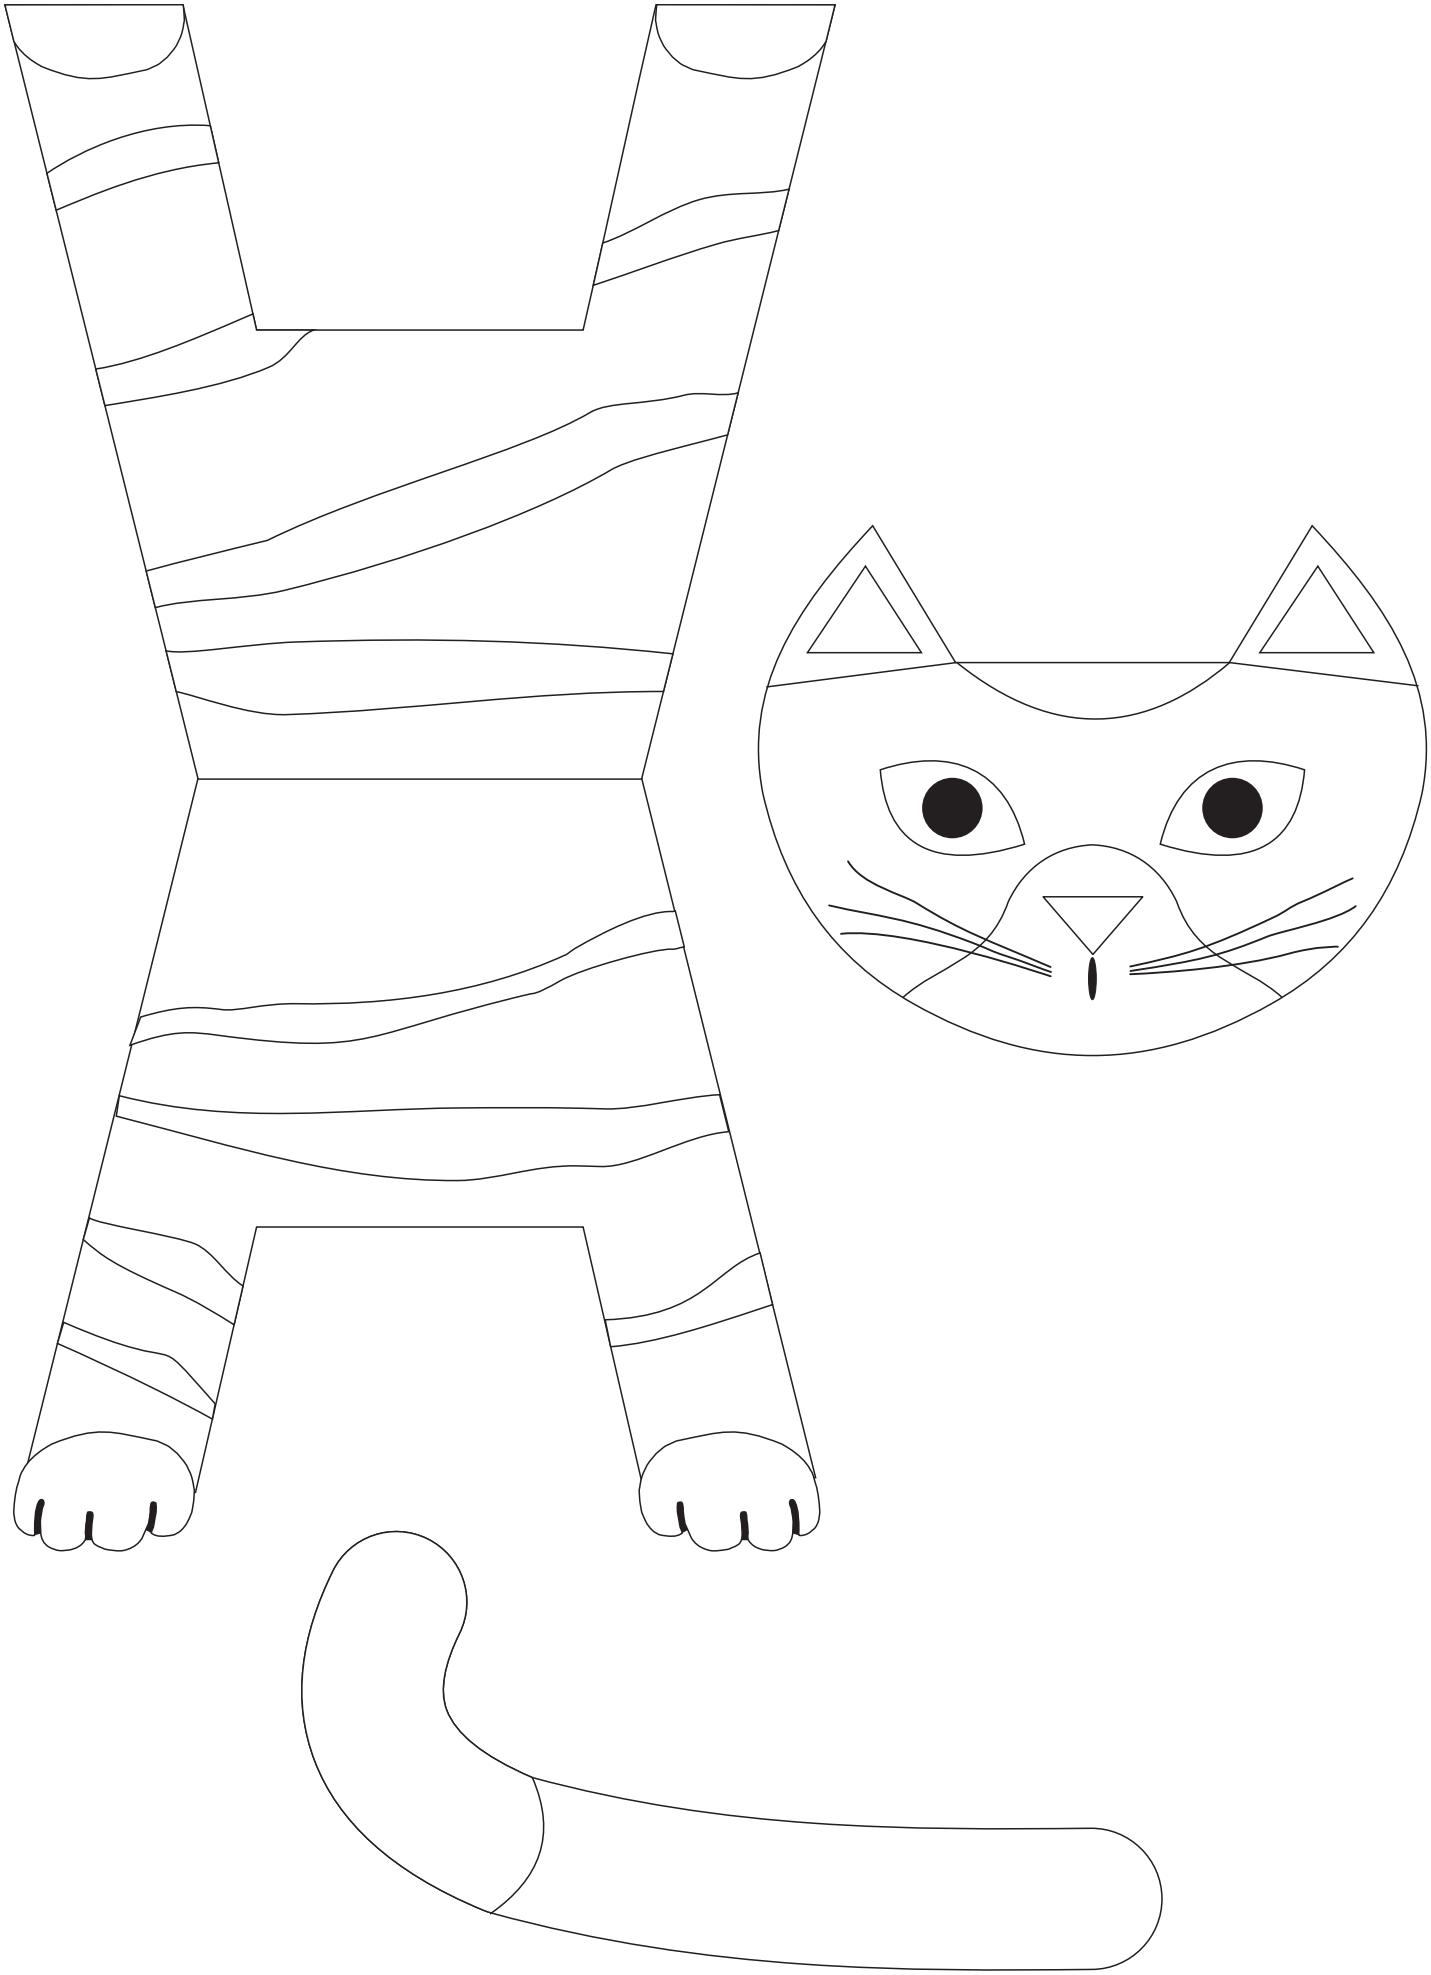
or use them as decorations on your desk.

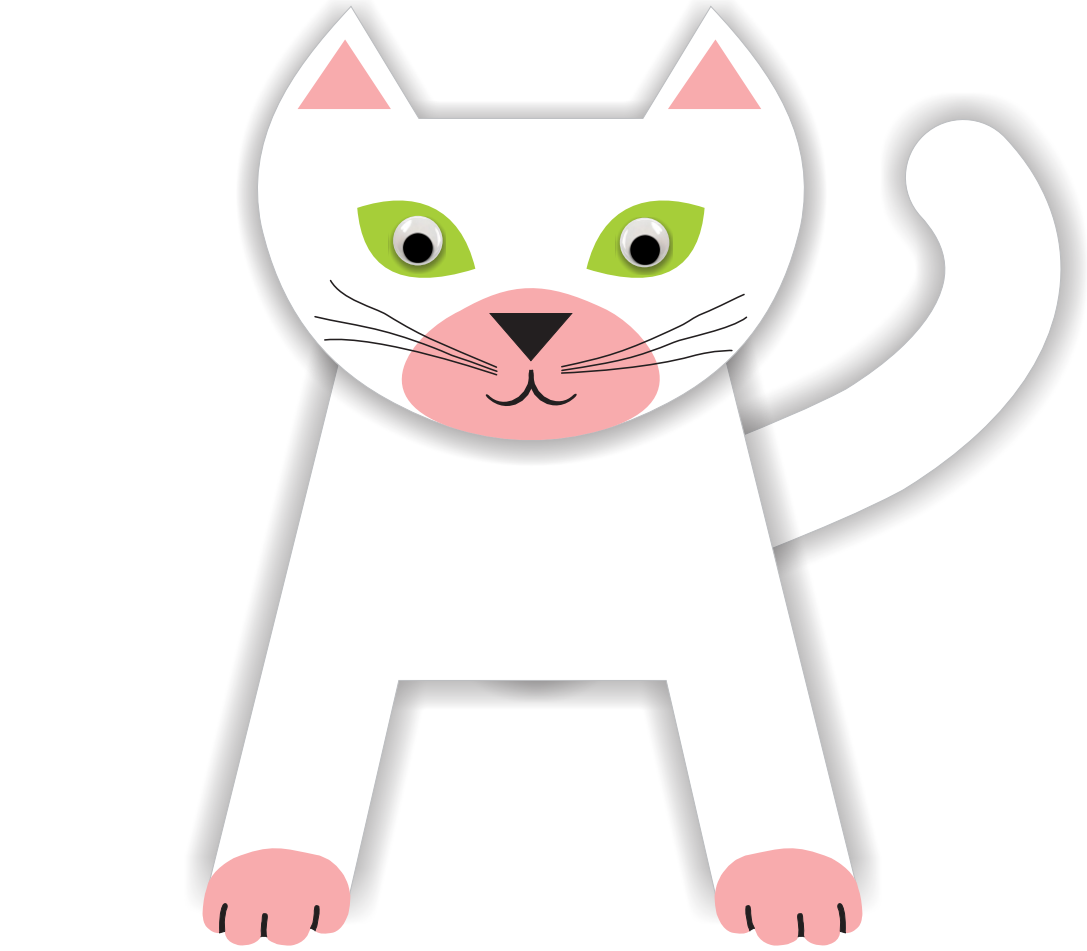
So cool!

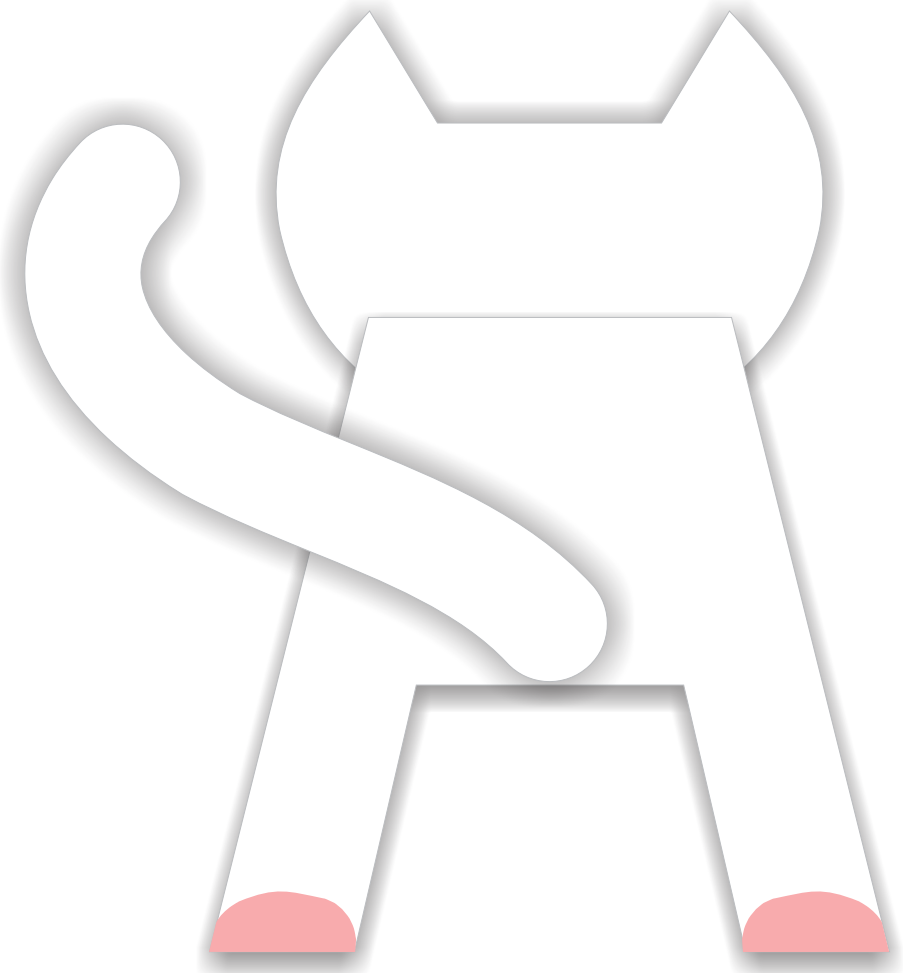
Tips

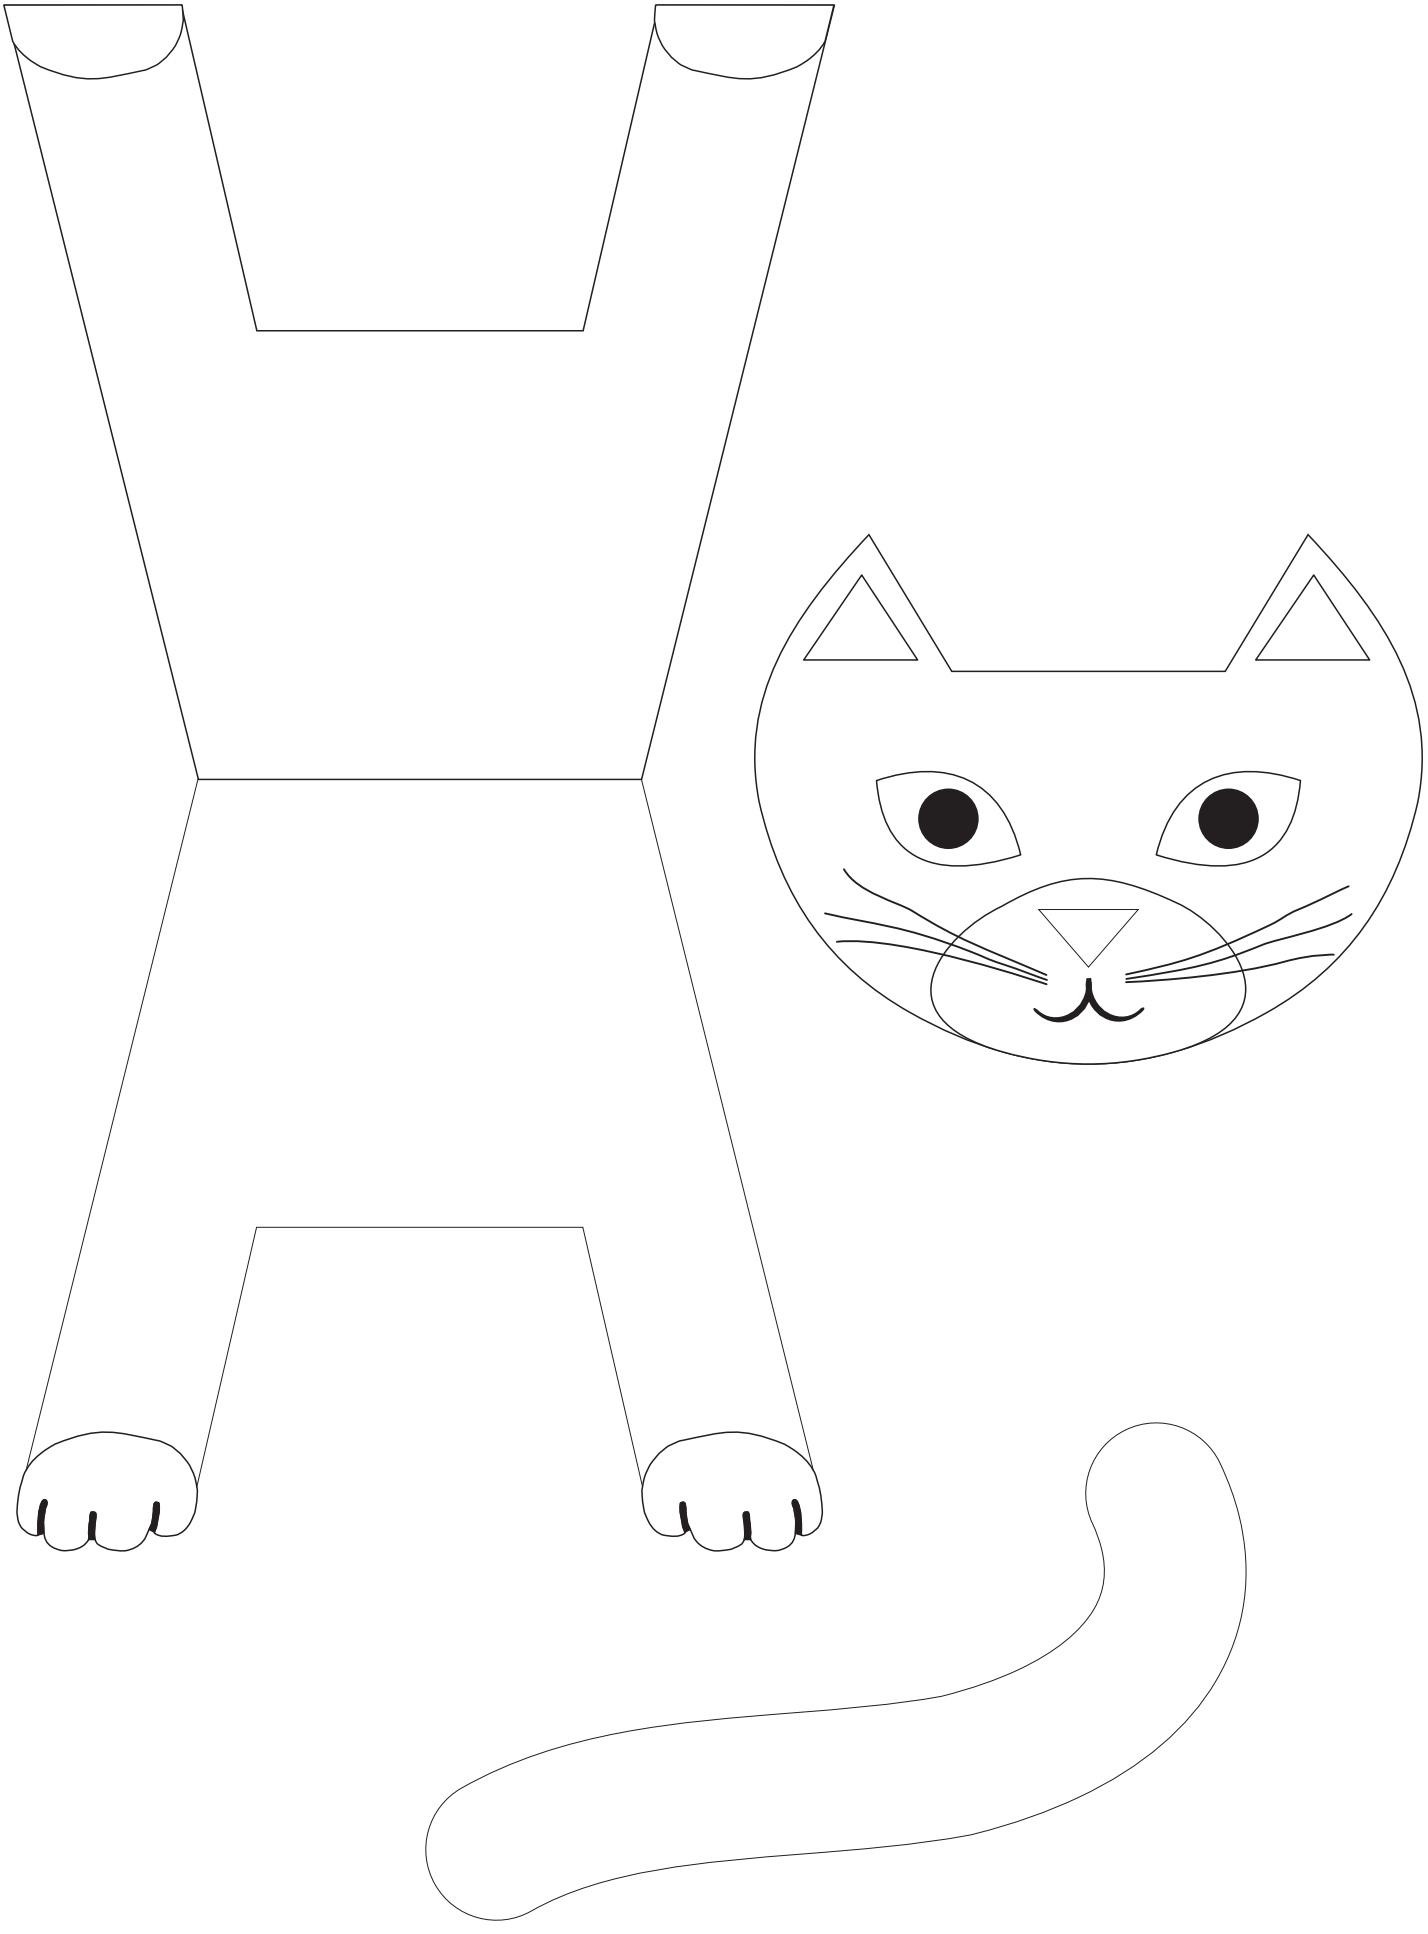
Colourful craft pom-poms can be used for their noses.

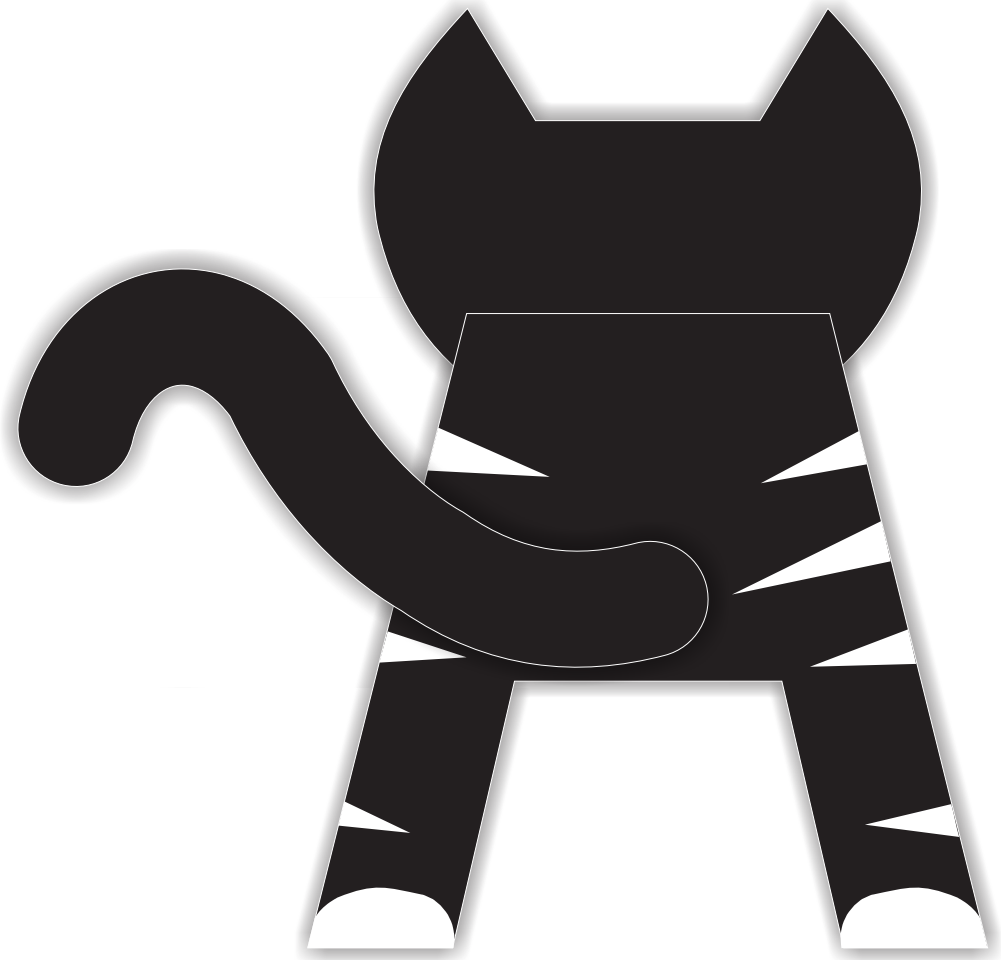
After you've coloured in the image, re-draw the whiskers


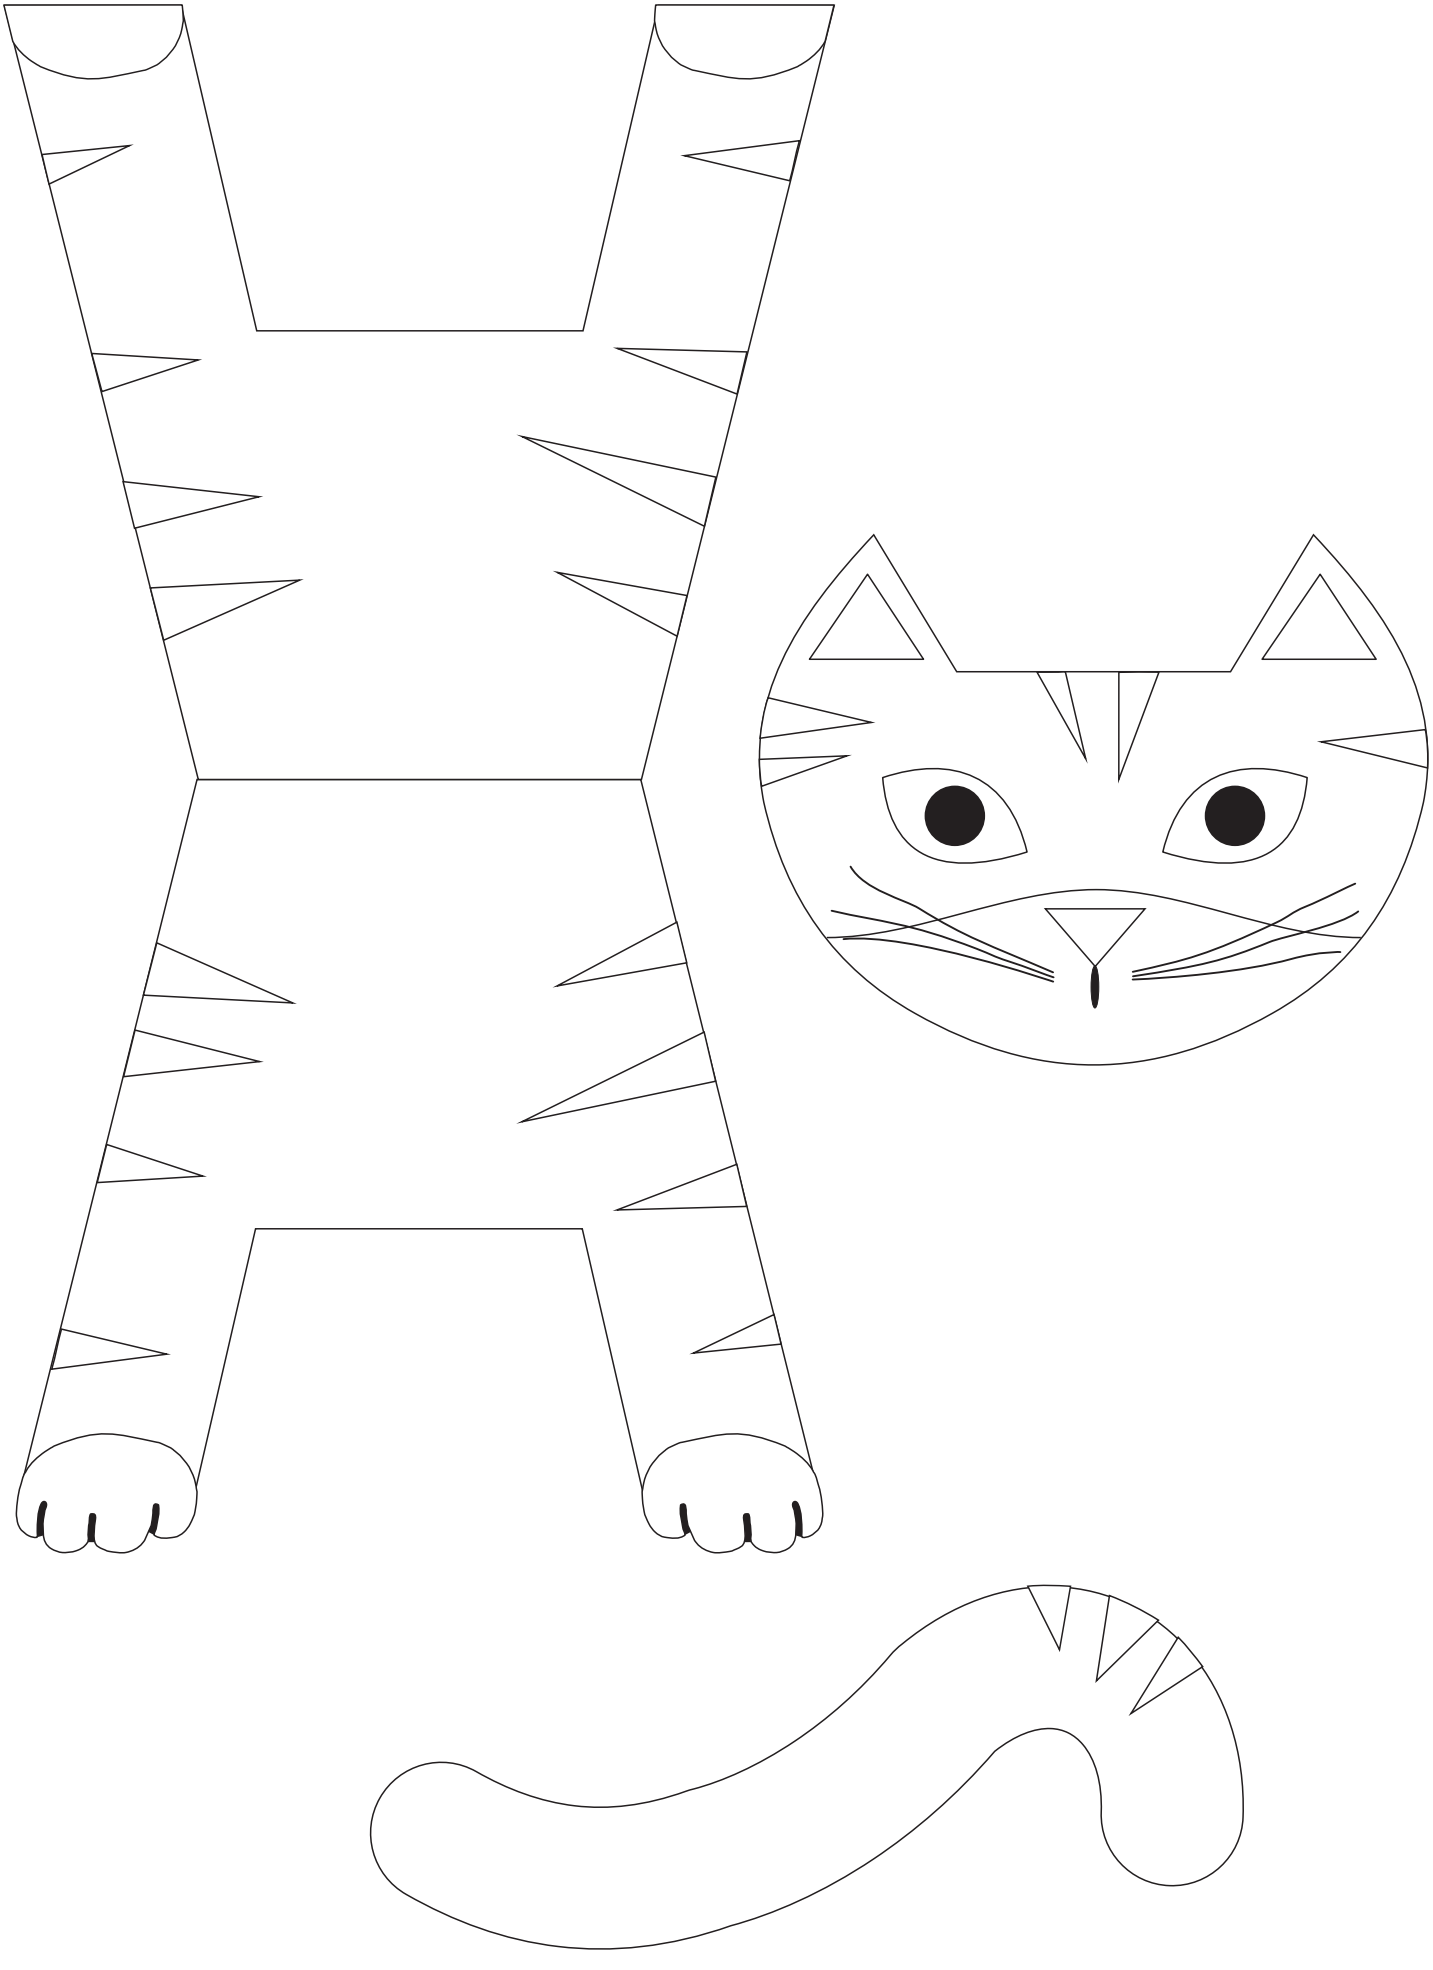


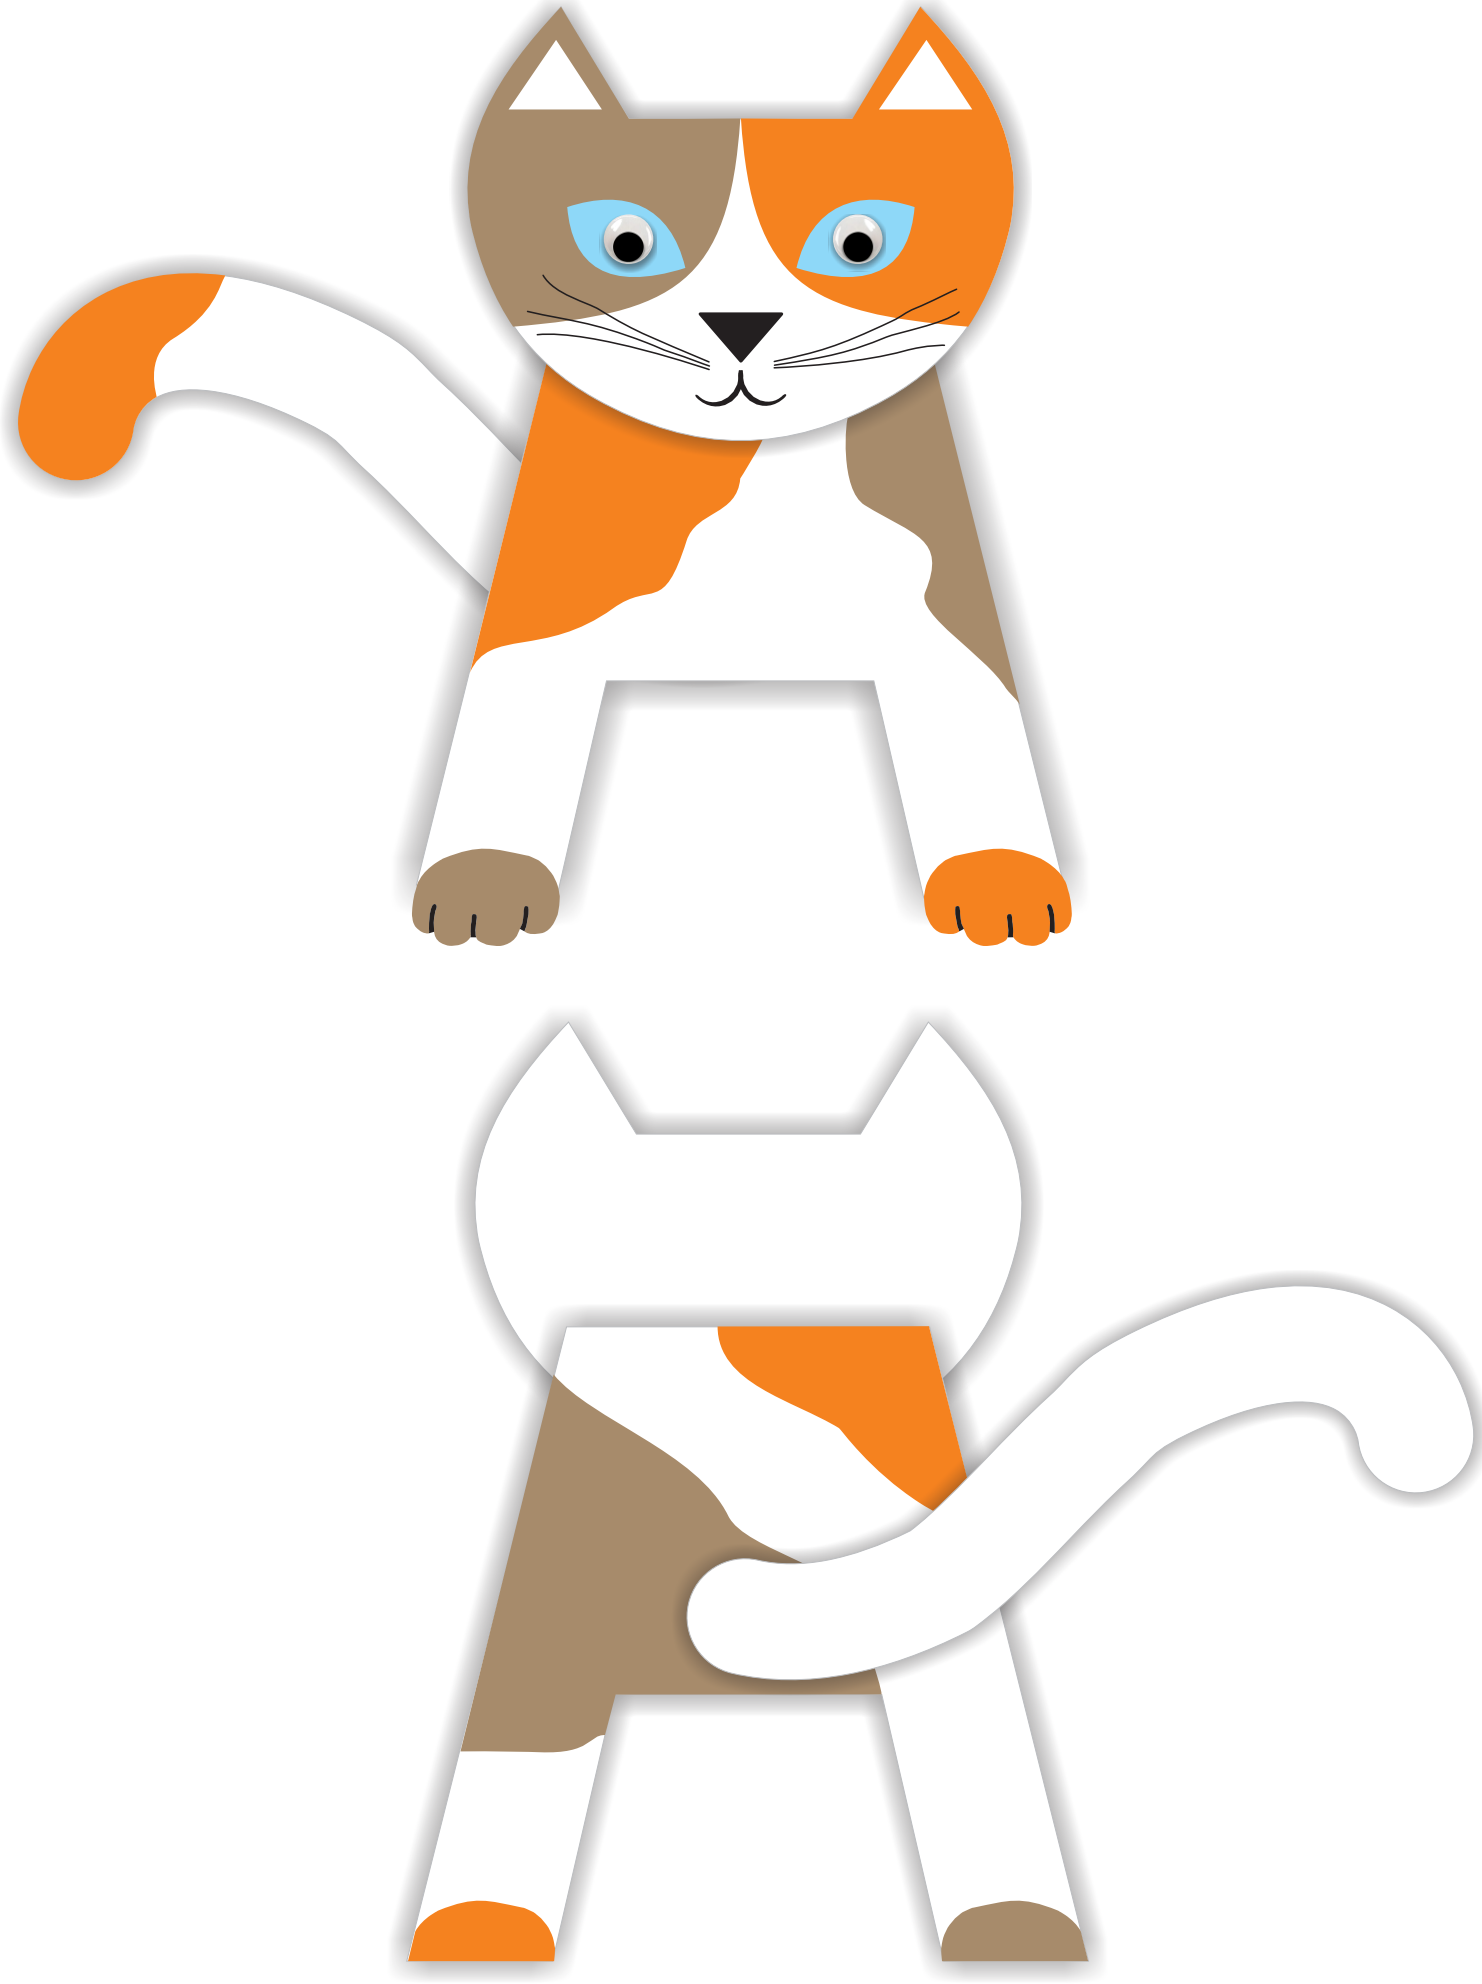


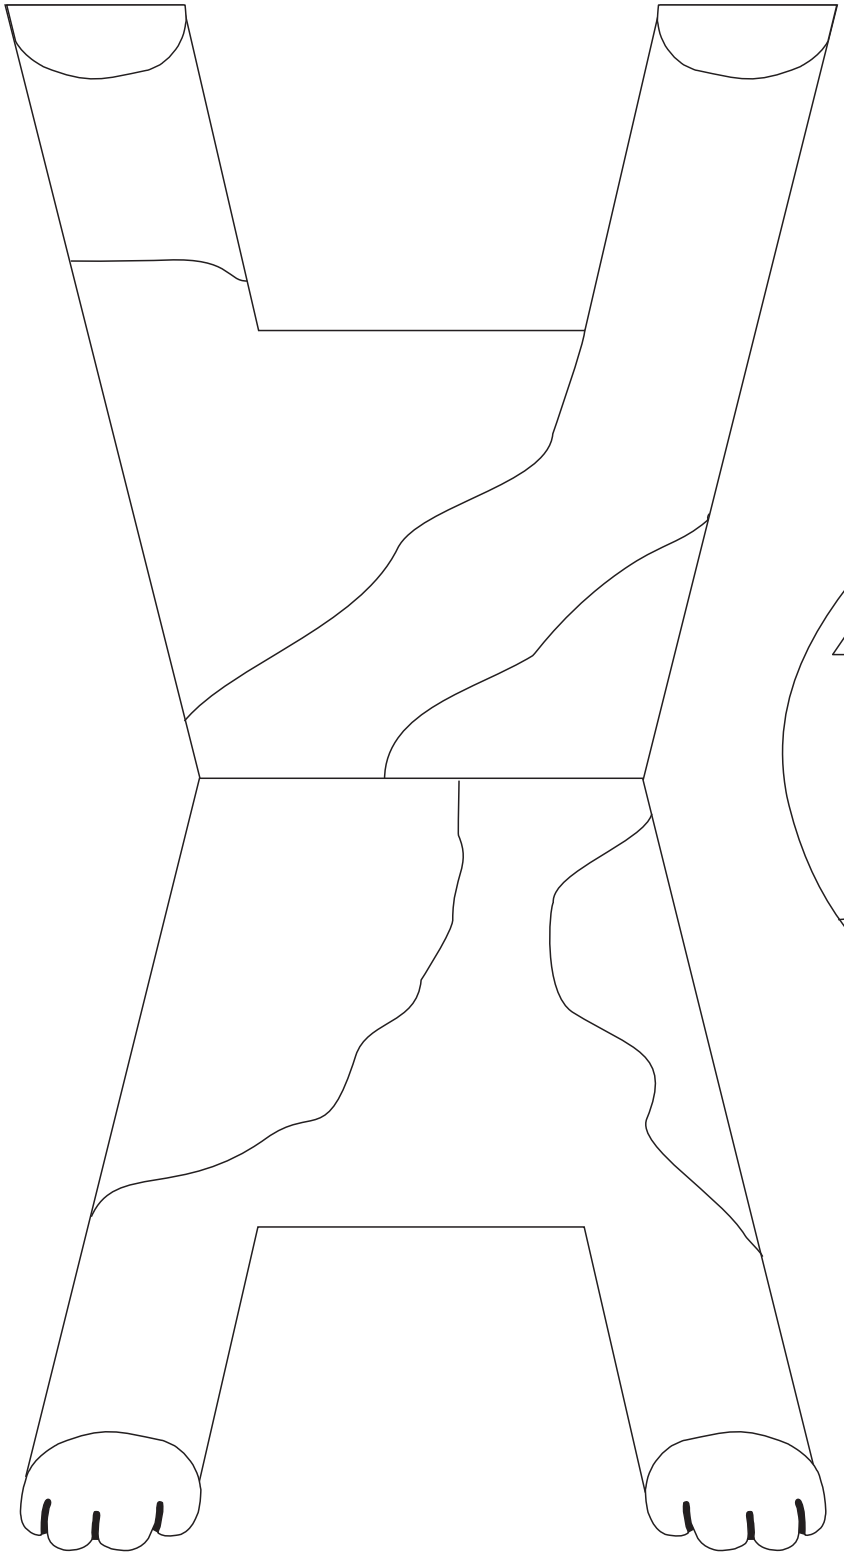


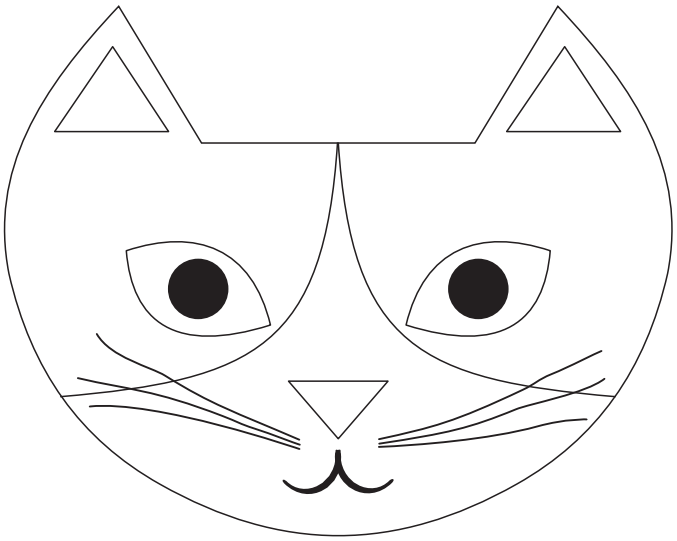


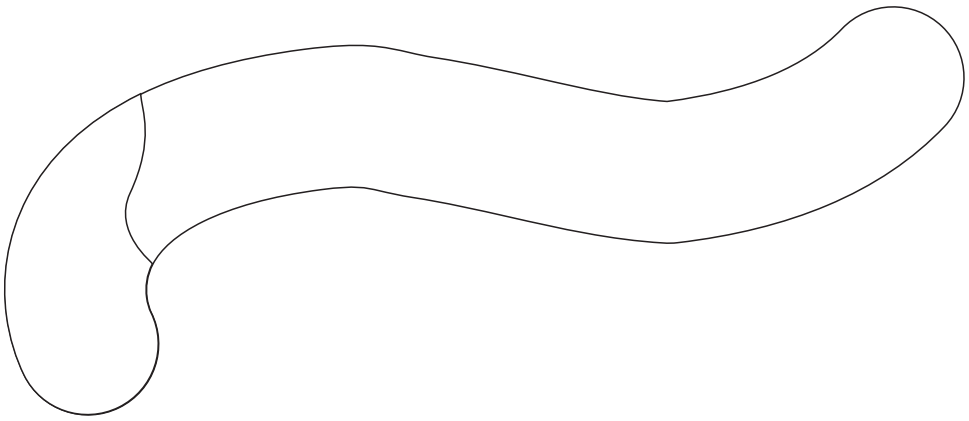












with a black pen to make them more visible.
